See reverse for scripts.

IZ = Immunizations

STEPS AND SCRIPTS FOR EASY IZ SCREENING

Steps

1. Ask for infant's/child's official Immunization Record.
2. Check age of infant/child—please note that age in months refers to all the way up to the end of the month (for example, “Birth-1 Month” means “all the way up to 2 months”).
3. Count number of DTaP doses shown on immunization record.
4. Refer to Easy IZ Guide and give indicated message (see suggested scripts).

Suggested Scripts

Refer for Immunizations

“Based on our review of the shot record you brought today, it appears that your infant/child may need some shots. Please contact your infant's/child's doctor or an immunization clinic.”

Congratulate Parent

“Based on our review of the shot record you brought today, it appears that your infant/child has received the DTaP doses he/she needs for their age. Congratulations!”

Remind Parent to Bring the IZ Record to Next Visit

“We will be reminding you to bring your infant's/child's immunization record to your next certification visit. We want to help you protect your infant/child from diseases.”
